STATISTICAL OPTIMIZATION FOR GEOMETRIC COMPUTATION: THEORY AND PRACTICE

Dover Publications. Paperback. Book Condition: New. Paperback. 526 pages. Dimensions: 8.4in. x 5.4in. x 1.1in. This text for graduate students discusses the mathematical foundations of statistical inference for building three-dimensional models from image and sensor data that contain noise--a task involving autonomous robots guided by video cameras and sensors. The text employs a theoretical accuracy for the optimization procedure, which maximizes the reliability of estimations based on noise data. The numerous mathematical prerequisites for developing the theories are explained systematically in...
