For example, if Congress were concerned about declining budgetary flexibility, it could design a tripwire tied to the share of the budget devoted to mandatory spending or to the share devoted to a major program. Other variations of this type of tripwire approach have been suggested. The 1999 Breaux-Frist proposal (S. 1895) for structural and substantive changes to Medicare financing contained a new concept for measuring programmatic insolvency and required congressional approval of additional financing if that point was reached. Other specified actions could be coupled with reaching a tripwire, such as requiring Congress or the president to propose alternatives to address reforms. Or the congressional budget process could be used to require Congress to deal with unanticipated cost growth beyond a specified tripwire by establishing a point of order against a budget resolution with a spending path exceeding the specified amount. One example of a threshold might..
