Reviews

Complete guideline for publication fans. I am quite late in start reading this one, but better then never. It is extremely difficult to leave it before concluding, once you begin to read the book.

B-284442 per pupil expenditure averaged 6, 189 in school year 1997-98, and state averages ranged from 3, 969 to 9, 643. Although many charter schools use this per pupil allocation to help pay their facility costs (typically rent and renovation expenses), the literature indicates that the allocation often does not fully cover these costs for several reasons. First, charter schools in many states receive less than 100 percent of the allocation that school districts or states give to traditional public schools. Allocations for charter schools range from 75 to 100 percent of what other schools receive. For example, in one county in Colorado, traditional public schools received an annual allocation of 4, 555. 66 per pupil for operations in school year 1998-99. In contrast, charter schools in that county received 85 percent of the per pupil allocation, or 3, 873. 21. Second, because of their small enrollments, charter schools often cannot take advantage of the economies of scale that larger traditional public schools realize. The allocation is based on enrollment, and most charter schools are small. Education reported in 1998 that 34. 8 percent of all charter schools and 36. 5 percent of new start-ups had enrollments of less than 100 students, while only 8. 6 percent of traditional public schools had fewer than 100 students enrolled. Finally, the per pupil allocation is based on the average cost per student for operating expenses and does not include costs for financing a facility. For example, in the Colorado...
