Good e-book and helpful one. It can be written in basic phrases rather than confusing. I realized this ebook from my i and dad recommended this book to find out.

Brand New Book ***** Print on Demand *****.Excerpt from An Essay in Refutation of Atheism It is not without some misgiving that I present the following essay to the public; not, indeed, because I have any lack of confidence in the soundness of its principles, or the combined analytical and synthetic processes by which I attempt to demonstrate the existence of God, the fact of creation, providence, the moral law, and the ground of man s moral obligation to worship God; but from a consciousness of my inability to do justice to the great thesis I have undertaken to defend, and my distrust of the disposition of the public to receive and read with patience what is most likely to be treated as a metaphysical disquisition, and therefore as worthless. Nobody now reads metaphysical works, or any works that pertain to the higher philosophy, and especially such as attempt to vindicate theology as the science of sciences. All I can say is, that my essay is not metaphysical in the ordinary acceptation of the term, does not attempt to construct a science of abstractions, which are null, and deals only with concretes, with realities. Some of the problems, and the analyses by which I attempt to solve them, may be regarded as abstruse, difficult, and foreign from the ordinary current of thought, as all such discussions must necessarily be; but I have done my best to make my statements and reasonings clear and distinct, plain and intelligible to men of ordinary understanding and intellectual culture.
